

TechMart Electronics — Installation Guide

Laptop Setup

1. Charge the laptop fully before first use. 2. Power on and follow the on-screen setup wizard to connect Wi-Fi and create your account. 3. Install available system updates before installing other software.

Smart Home Devices

1. Download the TechMart Home app from the App Store or Play Store. 2. Plug in the device and wait for the LED to blink blue, indicating pairing mode. 3. In the app, select 'Add Device' and follow the on-screen instructions to connect to your Wi-Fi network.

Troubleshooting Setup Issues

If a device fails to connect to Wi-Fi, ensure you are using a 2.4GHz network, as most TechMart smart devices do not support 5GHz networks.
