

TechMart Electronics — Warranty Policy

Standard Warranty

All electronics sold by TechMart carry a minimum 1-year manufacturer warranty covering hardware defects, unless otherwise specified on the product page.

Laptops and smartphones include a 6-month warranty on the battery specifically, as battery capacity naturally degrades with use.

Extended Warranty

Customers can purchase TechMart Care+ extended warranty (1 or 2 additional years) within 15 days of product delivery, covering accidental damage and extended hardware coverage.

Claim Process

To claim warranty service, raise a request from 'My Orders' > 'Warranty Claim', or contact support with the order ID and a description of the issue. Approved claims are repaired or replaced within 10-12 business days.

Exclusions

Warranty does not cover damage from liquid spills, unauthorized repairs, physical damage from drops, or normal wear and tear.
